Subject: N95s

Hello – these are my updates from our calls & from PCO this week!

April 30

Flight arrived today with **950,000 N95 masks** (was supposed to arrive last night).

Expecting a flight later tonight with **700,000 N95s**.

April 29

Two flights arrived from Shanghai over the past two days, carrying a combined cargo of approximately **1.35 million KN95 respirators** (pending official count) and an undisclosed number of gowns and face shields for Quebec.

April 27

A delayed flight from China caused by mechanical issue arrived Sunday, April 26 was expected to carry 900,000 N95 masks was actually carrying a load of **between 300,000 to 600,000 masks** (final count pending inventory of product).

April 25

Two cargo flights landed the morning of April 25th, containing over **1.5M N95 masks**.

These masks will need to be assessed and inventoried before moving to distribution to provinces and territories.
