### **HOTLINE**

We've launched a hotline service for entrepreneurs and small business owners - including not-for-profit organizations and charities. If you need help navigating these uncertain times, call [1-866-989-1080](tel:1-866-989-1080) to speak with an accountant or business advisor. They're ready to help.

### **PPE**

Update on personal protective equipment: We've signed a contract with Dorval's @JosephRibkoff for 1.2 million made-in-Canada medical gowns. We've also signed a contract with @StevensCompany for 15 million shoe covers and 5 million disinfectant wipes - all made in Canada as well.

We also have almost 1 million face shields and more than 7 million pairs of gloves on their way to the provinces and territories. And on Saturday, a ship carrying 15,000 litres of hand sanitizer arrived in Vancouver - we're expecting seven more ships in the coming days, too.

At the same time, we've signed a contract with @GLChemtec to supply chemicals needed for testing. Because as we start to reopen, we're focused on keeping you safe - and that includes making sure our health professionals have what they need to administer and analyze more tests.

### **WAGE SUBSIDY**

For more than three decades, @TrackNTrailYEG has been an important part of their community. But when the pandemic hit, they had to close their stores. Now that they're ready to welcome customers again, they're rehiring their employees by using the Canada Emergency Wage Subsidy.

There are so many stories like this one out there. And if your business is looking to do the same - and bring back your employees so you're ready to go when you can reopen - we've extended the wage subsidy until August to help you out. Apply today: ([LINK](#))
