Subject: Re: Finance Canada Customs Tariff Remission Order (waiving customs duties on imports of PPE)

Kk! Ryan said this sends a conflicting msg to domestic manufacturers who have put their hands up and that a lot of legwork needs to be done from policy folks when this is "announced". Leslie feels the same way.

Our thinking is that this should just go on the internet and maybe a minister can raise it in a daily presser, rather than elevating to PM level. But I've given that context to comms & shall leave it to them to decide how they wish to amplify.

Thanks guys!

Thank you!

Should we just go out with this tmrw in the PM's remarks, and let Ryan and Leslie know?

Hi Patrick,

The OIC is with Her Excellency for consideration. As soon as I have confirmation that she has approved it, I will advise. Unfortunately, I'm not able to confirm when that will be.

Hi Patrick,

Appreciate the clarity.

We have been lining things up on our end and with our PCO OIC colleagues.

We are not yet in a position to confirm whether GIC approval could be obtained prior to the announcement timeline.

Will keep you posted.

PROTECTED B / PROTÉGÉ B

Hi Patrick,

We will see what we can do to move this quickly, but am not yet in a position to guarantee GIC approval in advance of the announcement.

There are a number of steps which need to be completed at our end/with PCO to obtain GIC approval. Will try to compress them to the extent possible.

Regards,

Tina

Hi Tina,

Thank you for your assistance on this. We were asked last night to add this item to be part of an announcement, as early as tomorrow, by the PM. Focus of the announcement is on food and workers protection. I am told that while it could slip to Wednesday, it is more likely that this announcement is made during the PM briefing tomorrow at 11:15am. Will make sure our MINO contact yours asap.

Many thanks again for the support and I will keep you posted if I hear anything else at our end regarding timing of announcement.
Patrick

PROTECTED B / PROTÉGÉ B

Hi Patrick,

I appreciate the update. I think we had been planning for your submission/walkaround more around mid-week.

As you know, our recommendation would be to not announce the remission order until GIC approval is obtained. Do you know what flexibility exists on your end or to what degree the announcement timeline is cemented?

We will work with our PCO OIC colleagues to see what is possible in terms of timing, but it may or may not be possible to obtain GIC approval by tomorrow given that we are all juggling multiple urgencies.

Andrew had a package which we thought would move over the weekend, but we are awaiting a PM return. We are trying to bundle urgent files to the extent possible to allow for an efficient and effective briefing and approvals' process.

If you could offer greater insight on the announcement from your end, that would be helpful for our planning purposes.

Regards,

Tina

Hi Tina,
I am writing to update you on this file – the Minister has signed off on the regulatory package last night and it has been transmitted to PCO and TBS. We were advised that the plan is to announce this on Tuesday. We have asked our Minister's office to contact the President's office to allow for the walk-around process to move as quickly as possible. Thanks for your help in expediting this measure.
Patrick

Hi Tina

Thanks for your email and hope you are also keeping well. I can confirm our Department's interest on moving quickly with this issue and that our DM and MINO are aware and also agree on the need to proceed soon. The stakeholder pressure has been primarily coming via certain provinces (e.g., NL and NS) in calls with DPM Freeland and PCO senior officials and relates to concerns expressed by certain industry stakeholders (for example, in food processing sector). This issue was discussed with relevant parts of PCO (IGA, LSMP, ERDP) and they are all supportive of moving with this measure.

In terms of timing, we have a briefing note going to our Minister today with a requested return date of next Tuesday.

Trust this is the information you required and thanks to you and your team for your assistance on this file. If you need anything else, please do not hesitate to contact us.

Subject: Finance Canada Customs Tariff Remission Order
(waiving customs duties on imports of PPE)

Hi Patrick,

I hope you are keeping well through this time.

As you can imagine, we have been focused on urgent, time sensitive COVID-19 related files over the past few weeks. You would have seen the messages from the Secretary and me indicating that the bar is high for proposals going forward at the moment given the system's focus on those initiatives which are most critical to the COVID19 response. There is also an increased interest in stakeholder dynamics as you can imagine; we have seen

that play out on some files recently.

Therefore, I am doing a signal check with you to confirm your department's interest in proceeding at this time and to also confirm, if that is the case, that there have been signal checks done with respect to potential stakeholder dynamics.

I understand that Finance Canada, in consultation with PCO, hope to have a GIC decision on this remission order as soon as possible. We would appreciate it if you could provide additional insight on any hard deadlines that may be in play and an estimated timeframe within which we could expect the signed submission.

It is expected that TBS senior management, our Minister's office, and TB Ministers will ask questions about the priority, timing, and potential implications within the current context as any file moves forward. We are receiving those types of questions even on high profile COVID-19 related files.

Your response to by noon on May 1st would be greatly appreciated in order to facilitate our planning.

Regards,

Tina
