Yes, for sure. I've sent holding lines to Chantal and I'm working on more detailed lines on specific support.

I suggested they QT Grand Chief NAN to confirm additional swabs are on the way + will continue to support community's needs. Haven't heard back quite yet. Maybe they could also give info on background to Marcus Gee who wrote today's G&M story? Thoughts?

How are they planning to get this public?

Subject: RE: Dr Chase in Globe and Mail

The NIC will confirm details today, but here is the information that we have as of yesterday:

Oxygen: 5 large tanks and 8 small tanks  
Oxygen concentrators = 2 high flow

The community has a digital x-ray and it is operational.

NP Swabs 34 (we have 6000 swabs pre-positioned in Sioux Lookout and we will send to the community some additional swabs ASAP).

PPEs: Eabamatoong received its national PPE last week as follows:

Surgical 18 boxes = 900 masks  
Gowns 150 + 120 = 270  
Gloves = 67 boxes  
Face shield = 171  
N95 = 32 boxes

Nursing Staffing: staffing is at full complement of 5 nurses. We will

monitor the workload and request additional staffing as required.

Swabs taken since April 1, 2020 = 2 with possibly two additional last night for a total of 4 ( will confirm the actual number today).

The nursing station currently has adequate supplies such as IV fluids, oxygen masks, etc.

We ask the NICs to do biweekly inventory check an order as required.

Thanks  
Adan.

Adan has a list of supplies in the nursing station that was confirmed last week. He is reaching out now to NIC to confirm this morning's status and will communicate this to us after his call.

Garry
