**Cc:** Saini, Sabina (HC/SC); Church, Leslie (SPAC/PSPC); Dunn, Ryan (Ext.)  
**Subject:** Procurement Call - May 5

Hello,

Please see below for a summary of tonight's call:

### **PSPC – new buys:**

- Working on some relatively large contracts with 3M for N95s – would potentially come from the UK and China

### **PSPC – logistics:**

- Flight arriving tonight in Hamilton with 8m surgical masks
- Two flights arriving tomorrow: one at 420pm at Pearson and the other at 1045 in Hamilton
  - o Inclu.: 11 million more surgical masks and 100k gowns
- Anticipating one flight a day for the rest of the month with inventory on it
  - o A lot of pri-MED masks on the way
- **Q: When will we receive KN95s from diff, non-Tango suppliers?**
  - o A: Takes 3-4 days before they get on the airplane; maybe the weekend

### **HAC:**

- Several face shields coming off the line from domestic suppliers – NU factor, Toronto Stamp
- 99k swabs pending quality control
- Shipped out some Bauer face shields to P/Ts yesterday (165k)
- 38k bottles of hand sanitizer in diff formats
- 344k disposable thermometers
- 3700 George Courey gowns
- 350k shoe covers have gone out to P/Ts – were produced in Canada in MTL

### **Tango update:**

- Officials agreed that .1 is the appropriate standard and thus, Tango will need to be informed that they haven't met the specs in the contract
- Will first need to work out a strategy to figure out what that entails (cancellation, return of product, refund, etc.)
  - this will still take a day or two
- FAC, PSPC and the supplier will then have a convo with Tango

### **P/Ts pressures:**

- **Gowns is something that P/Ts have predominantly been asking for**
- **DM Fox: some requests from ON and QC for gloves too**
- We don't have any PPE RFAs at the moment
- Zoll vents from the U.S. should be crossing the border tonight
- Had to hire people to re-label the pri-MED masks; task will take over 400 hours

### **ISED:**

- Innovative Solutions Challenge on alternative filter fabrics for masks has closed

- 3 potential suppliers have been identified, should be good for primetime in the coming days
- **Q: When are we going to start seeing ventilators coming off the line from the 3 domestic suppliers?**
  - Next few weeks
