Subject: Procurement call - May 12

Follow Up Flag: Follow up
Flag Status: Flagged

Hello – please see below for some updates from tonight’s 4C. Notable updates have been underlined:

PSPC update:

- 150 Zoll ventilators arrived at the NESS today, earlier than planned.
- Officials are still working on some additional deals with 3M for N95s.
- Officials continue to work on non-healthcare PPE needs for essential workers.
- As you may recall, PSPC provided contracts to Weatherhaven and SNC to provide 10 field hospitals
 - o The Weatherhaven design was presented to P/Ts. There was some interest from Nova Scotia.
 - o Officials will present SNC’s design to P/Ts tomorrow.

PSPC deliveries update:

- Additional surgical masks & goggles arriving tonight
- First flight from the other airport in Shanghai went smoothly today
- The Air Canada PPE flight for May 15 had to be cancelled due to terminal congestion at the regular Shanghai airport
- DM Fox: Ontario is asking for flight assistance with getting PPE out of China. Any updates?
 - o Officials said they would endeavour to get back ASAP, recognizing that there is a call with Premiers on Thursday.

PHAC update:

- Received 120k face shields in the NESS from three different suppliers: 1) Dynaplas 2) HP 3) Nufactor.
- Delivered 126k surgical masks that had been donated by Fiat Chrysler
- Starting to deliver 22, 800 expired N95s that were donated from Radio-Canada, same with 62k gloves from DFO_
- PPC donation arrived – GAC says 50k N95s are from a Chinese manufacturer that is not on the authorized U.S. list
- We have 6.2m surgical masks in the NESS, with many more shipments on the way
- Received around 1m gowns by ship yesterday in Vancouver
- We’re in much better shape on gowns, hopefully in one week’s time (should our additional shipments come in as planned), we’ll be in top shape
- No quality issues on gowns or face shields to date
- Alberta put in a request for mortuary bags (body bags) so the GoC will provide some

Other:

- **PMO:** FYI - GM is attempting to stand up a factory to build surgical masks in Oshawa, ON. Relatively a small quantity, would be able to deliver about 1M per month. They are eager to start as soon as Thursday & have been working with HC on approvals etc.
- **PMO:** Did the 3M masks arrive last night? Haven't received confirmation yet. Officials will follow up.
