Hi Matt and Sabrina,

I have a couple of PPE stats and facts in the Speech from the Throne to run by you:

PPE made in Quebec has gone to help people out east. Soldiers from out west have gone to protect seniors in Ontario.

This spring, the Government issued a call, and thousands of Canadian businesses and manufacturers responded. On shop floors and in factories, workers came together.

Canada now sources 100% of what we need domestically. Right now, 45% of ITEMS has Canadian content.

If you have any information or confirmation, please let me know! Working to get an updated version to the PM by early afternoon at the latest.

Thanks,
Astrid
