Subject: Re: Mask question

Ok, we will add this as well on the approval of the Guangdong Golden Leaves Technology - considering it was approved by HC on May 5, we may not have purchased any.

Thanks,
Cecely

> Our officials had started working through the list of contracts that we have in place to determine those that are in the FDA's approved supplier list or if we have contracts with any of the suppliers who are included in this list below. We've pressed given that we have this request in. It's looking like we won't have the answer to this until tomorrow.
>
> The time consuming part of this process is that the dept has to go through the supplier contract list, find out which factories they are manufacturing in, and then match this with the factory list posted by FDA. Also worth noting that most suppliers manufacture KN95s at more than one factory in China.
