No sir. Looks right!

Joseph Ribkoff is based in Dorval QC & The Stevens Company is a distributor based out of Brampton so if the sites align with that info gr8. And GL Chemtech is based in Ontario.

Also, no flags with the content.

Thanks! I got the handles from the company's websites so they should be good. But Sabrina, if you find anything to the contrary, let me know!

Looks good, I can't confirm the handles for the companies. Adding Sabrina who might be able to help.

Hi Matt - Following up on this. Also changing the number of litres of hand sanitizer to reflect the number used in the PM's final remarks.

Good morning! We've drafted the following content based off the PM's draft remarks for today. Any edits or flags? Merci!

—

Update on personal protective equipment: We've signed a contract with Dorval's @JosephRibkoff for 1.2 million made-in-Canada medical gowns. We've also signed a contract with @StevensCompany for 15 million shoe covers and 5 million disinfectant wipes - all made in Canada as well.

We also have almost 1 million face shields and more than 7 million pairs of gloves on their way to the provinces and territories. And on Saturday, a ship carrying 160,000 litres of hand sanitizer arrived in Vancouver - we're expecting seven more ships in the coming days, too.

At the same time, we've signed a contract with @GLChemtec to supply chemicals needed for testing. Because as we start to reopen, we're focused on keeping you safe - and that includes making sure our health professionals have what they need to administer and analyze more tests.
