Hi Alain,

Can you please let me know where we are in the process with the vendors and products I submitted? The vendors we are working with are all large publically traded companies and carry very little vendor risk but these guys are tired of waiting...

We had found an Indonesia medical glove vendor that was willing to work with us provided that we showed him a government contract. While we waited his 200 million gloves per month supply got sold out till early 2022.

For the N95's we are working with PHSA in British Columbia. We have sent them samples from three different manufacturers this week. I will come back to you on those once they pass the PHSA test.

I have the ability to hit home runs but you have to let me get on base...sitting in the dugout is seriously zapping my credibility with all the vendors...

Please me let me know where we are...

cheers

J

Jeevan,

I need to understand better your relationship with those suppliers.

Do you have an MDEL?

Are the product authorized to be sold in Canada?

Do you have any certifications?

What is the supply capacity?

What is the delivery timeline?

What are the prices?

Providing with catalogues of products is not sufficient.

Please advise

Merci

Alain

Hi Alain,

I am following up on the emails from over a week ago. I also tried calling Tuesday and left a message on your cell. If you can please let me know what is going on with my submissions I would really appreciate it.

All my supply pipeline comes through recommendations from people that I do business with regularly and the radio silence is giving my credibility a serious black eye. You don't need to give me a contract but I do expect clarity and the rulebook by which we are playing.

I am going to leave our product catalogs here just in case you missed it. there is a couple missing because you have a file size limit.

Best Regards,

Jeevan Singh
