Sorry for the group email but I felt the need to try to move this forward ASAP, per my previous messages:

Surgical Mask ready to be made in Canada. Budget attached.

With government support, I can have the machine installed at Novo by Saturday. We will begin production and shipping of masks early next week but we NEED support.

If I don't act quickly, we risk getting outbid on the machine and raw materials, as it has already increased by \$8000 USD since my proposal was sent to you on Friday. As such, **overnight I have put up my personal savings to pay the deposit for the machine and raw materials. It will ship within 24 hours.**

Will government support us with the balance investment and or confirmed Mask orders?

Novo is committed to charging **less then market price for the masks** to help in this fight against the virus, they'll be Made in Canada by Canadians.

- **le we will discount the masks to Government procurement to "repay" the cost of the machine investment. Net Zero cost to taxpayers.**
1. **This investment will help secure PPE for Canada**
 2. **Support growing a Canadian manufacturing business by scaling operations with equipment Government can leverage for years to come**
 3. **Ensure job security for 15 skilled seamstresses and trade people at Novo**

NOTE: I've cc'd Mayor Stewart of Coquitlam who toured my facility yesterday, Michael Hind , CEO of local Chamber of Commerce, and Joyce Tang, WTC Vancouver who can vouch for me.

Pls advise.

Thank you,

Jason Zanatta

Importance: High

Attn: IRAP minister & team, (apologies for all the emails)

QUICK SUMMARY:

Novo is ready to re-tool our existing factory into a n-95 mask making, incontinence soakers pad, and hospital pillows manufacturing factory.

- ✓ Yes: we manufacture in Canada
- ✓ Yes: we have ready access to necessary input through our existing supply chain.
- ✓ Yes; we have existing equipment and facilities that can be rapidly retooled to meet medical needs, specifically for the production of masks, wipeable pillows, soaker pads, and fluid proof pillows
- ✓ Yes: we have skilled works that are available and eager to continue working. Our regular business is nonexistent as the national retailers we supply have all closed.

Novo is located in Coquitlam BC, Canada

Subject: Novo - medical product mfg'r - ready to scale: N95 MASK & INCONTINENCE PAD MFG'ing

Importance: High

Attn: IRAP team

Novo is ready to re-tool to immediately begin production in our Coquitlam BC facility of **N95 surgical masks with 30-45 days.**

With an investment of \$125,000 in new equipment plus \$125,00 in working capital for raw materials and training, **we can be producing within 30-45 days.**

Novo is an experienced Coquitlam BC manufacturer ready to re-jig & scale up our capabilities to make N-95 surgical masks.

I'm eager to keep my staff employed in the battle against COVID-19 and future pandemics.

Here is an overview of our existing and planned capabilities:

Existing product manufacturing specialties:

- Hospital grade wipeable pillows
- Pillows
- Support cushions
- Pet Beds
- Custom cut and sewing capabilities

NOVO's EXISTING EQUIPMENT READY TO USED:

- Automatic Cutting and Sewing machines for pillow, cushion and bag manufacturing
- Nonwoven cut and sew system for bulk bag and pillow case sewing machines
- Fully automatic fiber processing machinery for stuffing pillows, cushions, pet beds etc
- Vacuum packing & boxing machinery
- Fully integrated EDI Server system for automatic data population of orders, delivery tickets and invoicing

NEW EQUIPMENT & INVESTMENT NEEDED TO SCALE:

- Automatic n95 mask and surgical mask making machinery, installation and training within 30 days
 - Our machine supplier makes fully automatic mask production lines, we are experienced in these machines, how to operate and maintain them
 - This machinery will enable immediate production of masks locally within Vancouver area

Products we will scale up to manufacture locally and supply within 30-45 days of investment:

- **N95 masks - 240,000 per week**
- **Incontinence pads - 20,000 per week**

My team staff consists of experienced seamstresses, automatic machine operators, order fulfillment & logistics specialists. We stand ready to begin work on this project immediately.

Please advise what further info you may need,

Jason
