**Subject:** Re: Counterfeit N95 Masks

Ok. Would you mind if I included Christopher Phare who works for 3M on the call. He knows way more about it that I do.

I'm pretty much tied up for the rest of the day. Would tomorrow be ok? I'm free from 10:15 to 11 at the moment.

Hi Kelly:

Let me know when you might have five minutes free to chat with me. It relates to concerns about counterfeit N95 mask being significantly pushed out onto the global market. 3M would like to make a connection so they can assist governments in assuring they procure protective equipment that is at the proper standard required.

My cell is 613-791-5618

Thanks!

Kevin
