**Attachments:** MDEL Numed.pdf

Hi David,

Can you get someone from the department to reach out to Jeevan?

He's been reaching out to me every couple of days because he hasn't heard back from the department. He just needs a contact and to find out if he could be given a contract or not.

His BuyandSell ref# is 53960

He has an MDEL and can answer any other questions.

Can someone reach out to him in the next couple of days?

His phone number is: (613) 8944819

Thank you!

Chelsea

Hey Chelsea,

As a follow up from our conversation, please find my attached MDEL # 13160.

Just to recap we can supply most of the PPE (Respirator masks, surgical mask, faceshields, gowns, gloves). Production capacity ranges between 10 million to 20 million per month depending on the product (much higher for gloves). One of our respirator masks was independently tested by the NPPTL for filtration capacity. We can provide test reports, samples for independent testing and site visits (in China), if required.

My partner's family business is a designated logistics partner for multiple large state-owned Chinese companies in the cloth-making space. That business has been going on for 20 years. We can very easily solve logistical bottlenecks because of our deep local roots and know-how.

I hope this helps you coordinate with PSPC. I will keep you in the loop as things evolve with them.

cheers

Jeevan

Hello Mr. Singh,

Mr. MacKinnon's office passed along your email below.

I have forwarded your information to our department who is analysing all the applications that come in on the Buy and Sell portal.

They should reach out to you in the next couple of days. Please let me know if you don't hear from them.

Best regards,

**Chelsea Kusnick**

Hi,

as per our conversation, I applied through the online portal was called by triage and didn't get an update after that, its been almost a month. Our reference number was 53960. Our company name is numed supply corp.

We can provide particulate respirators, face masks, gowns (all levels), face shields, medical examination gloves, and goggles. This is getting a little frustrating for us because our partners just shipped 3 million gowns to France+5 Million face shields to the UK last week and we see our Canadian stockpile depleting without being able to help. We have been consistently shipping other products overseas without a hitch, we want to be able to help our home as well. I can send test reports, manufacturer presentations, samples, and organize site visits to factories (in China, embassy staff can probably do this) on an as-needed basis.

I look forward to hearing from you.

Best Regards,

Jeevan Singh
