Team Anand,

My partners company now makes packaging in robotic Chinese factories—have for the past 9 years. None of his factories were affected by C-19. We are up and running 100%.

Currently we can make 500,000 surgical masks a day and 100,000 N95 masks a

day.

In order to produce these I am looking for a 6 month contract (essentially to secure my place in line from other requests).

We also have secured private air freight (leased 737) because all the cargo companies like UPS are backed up for weeks if not months and cargo ships are 2 months.

Is this of interest?

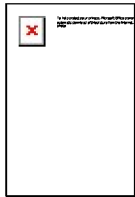

My cell is 9058024124

Gratefully Yours,

Alex
