Hello Anita and team,

We were told that you are currently looking to procurement millions of masks per week- we can certainly assist. I'd like to introduce you to **BenV Capital**, one of the world's largest manufacturers of FDA and CE Certified Medical Grade KN95 masks.

With 235MM masks already delivered and 600MM in production for delivery in the coming weeks, we deal directly with the end buyer without going through brokers in order to deliver complete control over the end-to-end delivery and to keep the price as low as it is. With our capacity and infrastructure, we're able to deliver to nearly any location worldwide (current clients include Canada, Europe, South America, Mexico and America.)

Below is a link to our recent press release that will provide an overview.

<https://finance.yahoo.com/news/benvcapital-corporation-500m-kn95-masks-161000761.html?guccounter=2>

Based on your needs, I can provide the details on the "landed" cost in Canada and the proprietary details on FDA approvals, CE Certification, shipping, etc. for review. We are a complete end-to-end supply chain with near limitless capacity, and 10-15 day order to delivery time-frames.

Another thing to mention is that we are jointly donating an additional 10% to approved charities, organizations, and first responders, etc. We would love to give back to the first responders, elderly, etc and those who need it the most.

Feel free to call me at anytime at 416 918 7175. We would love to discuss how we may be able to assist your efforts.

Thanks,

**Jessica Martins**  
*President*
