Hi Sangeeta, thank you for your reply. Yes we've submitted through those links but will try again.

Matt & Madison, please advise what further info I can provide to move forward on supporting the supply efforts?

- ✓ Made in Canada Masks
- ✓ Canadian skilled workers kept in full employment
- ✓ Health Canada Certified
- ✓ Lower Price than market

We want to help, but have not rec'd any federal orders or commitments?

Thank you,

Jason Zanatta
CEO | President

Hi Jason,

Thank you for connecting us Haley.

Jason, Public Services and Procurement is proactively engaging with industry to help meet Canada's needs, and is leading the consolidated purchase of required emergency supplies and services. Any potential suppliers or individuals with helpful information on supporting the COVID-19 response are encouraged to visit <https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19> <<https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19>> for more information and to share which resources they have access to help.

I'm also adding Madison from Minister Anand's office as well as Matt from my office who are leading on federal procurement of resources.

Best,
Sangeeta

Hi Sangeeta and Jason

Thank you both for allowing for this e-introduction.

Sangeeta, Jason Zanatta has a company here in Coquitlam (Novo Textiles) which can make medical grade masks among other helpful supplies. They have a Class 1 Medical Device Licence and the provincial government has just placed a substantial order.

Jason, Sangeeta works for the Prime Minister's Office leading the Western Desk and will be able to help direct Novo Textiles in the right direction.

Stay safe and healthy!

Warmly,

Haley Hodgson
