Importance: High

Hi Francois,

Can you pass this along to the department so someone can reach out to them to give them info on next steps?

Thanks!

Chelsea

Subject: COVID Test Kit Availability - 500,000 units
Importance: High

Sean,

Hope you are well.

We now have the ability to provide packaged Covid test kits using existing Health Canada approved swabs and UTM (Universal Transport Medium).

At the moment our solution is based on producing 500,000 test kits over the next 6-8 months.

Is this something the federal government is interested in or are any other provinces in need of test kits? There has been limited interest in this solution in British Columbia and thus I am extending our offer outside the province.

If this is not your domain can you connect us with the right contact?

We can gladly provide more documentation and information as needed to the right people.

Thanks in advance for your help!

Matthew Howard, M.A.
Vice President & General Manager
