Subject: Launching PPE support supplies factory in Ontario

Hi Anita

Hope you and your team are well and safe during this time, and thanks for your countless efforts toward helping Canadian with COVID-19 challenges.

We are group of experienced business owners in process of launching first Made in Canada wet wipes (antibacterial for hands & disinfection for surface) production plant in Ontario. Business feasibility study and financial projection is ready to be submitted to BDC during this week aiming to open doors in 4-5 months from now.

So, I'm wondering whether any further help from government side might be there to help us with launch and future expansion (planning to expand toward masks, medical wearing, and non-woven raw materials) . Our goal is to secure supply chain of PPE and related materials in-house to protect Canadians from any danger with this virus and also bring jobs back to Canada through manufacturing which is going to be the best way to have our economy to recover after pandemic.

Looking forward to hearing from you and wish you all the best.

--

Thanks,
Ali Salarian
