I sent you an email about that earlier Today and received this update from our stakeholder just after writing to you (email bellow). So I confirm they have filled the buy and sale form, but didn't hear back and they are flagging that they have high demand and stock could run low. Can we follow-up?

Thank you!

Hi Natacha,

Yes, I did fill in the form provided and was able to get in touch with Phillipe Bisson; but no answers so far.

Please advise at your earliest convenience. As stock could run low due to high demand.

Thanks, Kenny

Hi Mary Ng,
How have you been?
I am one of the members of the FCCM and we met during the last Christmas party located at the King Square Shopping Centre.
As the COVID-19 cases are increasing in Ontario, Canada and the situation have been more and more stressful for every society, I would like to do my part to help out everyone in need.
I was able to get in connection with one manufacture in China that produces masks; any type of masks such as medical, N95, etc and also testing kits. This manufacture does ship worldwide such as to; the USA and Europe, including Canada.
I do have a few questions in mind;
Does the government need to purchase a large number of masks and testing kits?
Does our community need a larger quantity of medical masks?
I would like to speak to you about our demand in Toronto or Canada, all in respect.
Sincerely,
Kenny
