Subject: FW: Ventilator.

Hey Caitlin,

Not sure what the status is on ventilators at this point – here's an offer for about 700. It's in the tracker.

Hi Chelsea,

I wanted to follow up with you regarding the ventilators and our submission to the web portal you provided.

The reference number is 51793

The model ventilator has been approved by the US FDA and can be found on their official list of approved equipment. I provided you with a link to their list, below.

As you know, it is a Wild West out there for equipment; lots of promises, but no delivery. But we have them. I sent you photos of the actual ventilators as they sit on pallets. They are real. They just need documents and payment and they can be delivered in less than a week if we can secure air freight.

I just don't know how long we will be able to hold on them for.

If you can advise your intentions it would be greatly appreciated.

Best Regards

Tom

Hello Mr. Park,

Your email below was passed along to our office to follow up.

The best way to help would be to fill out the form on this portal: <https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19> . Once you've submitted the form, please send me the reference number you receive so I can follow up with the department for you.

Our department is reviewing the significant number of responses and identifying potential suppliers for the goods and services that may be required as the COVID-19 situation continues to evolve.

Thank you for your support.

Best regards,

Chelsea Kusnick

Subject: Ventilator.

Shannon,

I am a colleague of David Nur, who you spoke with last week regarding PPE.

I wanted to follow up with you on your question of whether Medeeco Ltd. could provide ventilators.

We can provide ventilators.

Our US partner, Critical Care Solutions, are bringing them in from their supplier in China with all the necessary electrical changes to operate in North America.

To give you an idea at which the speed they are moving in the US. Critical Care Solutions began discussions with the State of Maryland on Friday April 3, received a letter of intent from State on Saturday April 4 and payment for 50% of the cost on the morning of Monday April 6, who then sent the money to their supplier a few hours later. Delivery is expected this week.

I have attached two files for you. They are brochures of the two models of ventilators we can provide.

If you think we can help, please do not hesitate to reach out to me.

Best Regards,

Tom
