Hey,

We would have no concerns - love it.

Hi Kelly and Travis,

PMO suggested we look into getting a signal from the Canadian government on 3M setting up capacity here for n95 masks. They currently don't produce these here and we import from the states, which may become an issue given current events.

Their Canadian CEO is looking for a written signal for her to take to her Global CEO to get things moving. Minister Bains had a brief discussion yesterday with Penny Wise (Canada CEO) and said he would look into it.

I'm thinking this would likely look something like a letter of intent signed by ISED and PSPC DMs, as we did with the three companies announced yesterday.

My chief has been discussing with our DM so wanted to ensure discussions were also happening between Minos at the advisor level. Let me know.

Thanks,  
Celine
