Subject: RE: Ventilator Contact Info

Hi Brendan,

Copying Gowthaman for situational awareness on the licensing process.

I would suggest that the stakeholder proactively submits a Buy and Sell submission; however, please note that nothing will move forward until they receive the necessary certifications from Health Canada.

Subject: Fwd: Ventilator Contact Info

Hi Dovejot

Here is our ventilator constituent-apparently he's working to get the approval for them right now-I don't know if we can help with that or he can jointly do that and fill out the buy and sell thing. His contact information is below -if there is someone who can help him with the licensing portion.

Best

Subject: Ventilator Contact Info

Brendan, here is the contact details and video for Mr. Stupat's product. In the last couple of days he has connected in some manufacturers who have experience with medical devices and approvals and he is planning to submit information to the medical devices contact that you provided later today. I did try to

encourage him to also submit to the buyandsell.gc.ca as they maybe able to help expedite the licencing portion. As requested here are his details:

here is a link to a CBC London article and video regarding the ventilator:
