Thanks everyone, I echo Kylie to please visit [buyandsell](#) and register your company and products with the Government. We are currently experiencing a huge number of applications to support the government's response to COVID-19 and the large demand for health supplies. I will also be sure to flag this to my Chief, the Associate Deputy Minister and their Procurement team. The department is triaging appropriately on a needs basis. Thank you for reaching out!

Hi Justin,

Great to meet you and thank you for reaching out to offer your help during this time!

If you already have these items on hand and they are licensed, as I assume they are, you can go to <https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19> and fill out the form for COVID-19 Products and Services. This is the central repository being used for any suppliers who have products to offer the government to help and is the easiest way for us to make sure you're in contact with the relevant people. Someone from the department will get back to you to shortly to determine next steps.

I have cc'ed my colleague, Madison, at Public Services and Procurement, for her awareness.

If you have any questions, please don't hesitate to ask!

Thanks again,

Kylie Phillips

Thanks Justin. I'd like to introduce you to Kylie, my counterpart at Health Canada.

Kylie – Justin is with BOMImed, a Winnipeg-based company in the ventilator space. They sell Hamilton ventilators and also manufacture fittings and hoses. He inquired about the government's activities on the topic of ventilators.

I'll let you two connect.

-Tim
