Thanks! Is it worth it to follow up and ask about their quantity available, and their B&S application number? I won't usually include companies in my tracker without the product specs and quantity available.

Flag for you – these guys can get tons of disposables, though they're industrial grade not medical. Have already submitted through B&S portal

Just for your reference. Hearing from our customers that health care workers are taking any disposables they can get

Here are the links to all of ours: (all types of materials – nitrile, latex. Vinyl...different mil thicknesses)
https://www.watsongloves.com/product_categories/disposable/

As discussed we can air container loads if needed.

Looking forward to hearing next steps and tech specs for gowns and masks.

Thanks for all your hard work Tim!

Hi Laura – thanks for chatting to me today. I've asked my colleagues at Health if we have any specs for gowns and masks, as well as about what kind of licensing relaxation may be planned for gloves.

I'll let you know what I hear, and in the meantime please feel free to reach out should you have any questions.

Best,

Tim Logan
