Subject: *SIGNAL CHECK* Vaccine Logistics LOI

Hello Nathalie,

The below was sent from AB as a signal check for the DM and MinO with regard to the vaccine logistics LOI. The Notice of Proposed Procurement (NPP) and Rules of Engagement & Participation Agreement are also attached. In response to the request for approval on the Communication messages sent yesterday, Bill had mentioned that MinO should be briefed; I can work with David to set this up, if still required.

Please advise of any concerns or comments.

Regards,
Renee

Subject: Vaccine Logistics LOI

Hi Renee,

Another signal check on behalf of MM for the DM and MINO.

Thanks!

Please find attached the proposed Letter of Interest (LOI) to be posted on BuyandSell.gc.ca for vaccines logistics. The scope of the LOI is the first step in a consultation process with industry players aimed at obtaining supply chain information related to:

-
- Importing the vaccine to Canada (e.g. freight, customs clearances, etc);
 - Warehousing and distribution of COVID-19 vaccines across Canada;
 - Requirements for temperature monitoring, record keeping and recall procedures (track and trace).
-

Although we are encouraging companies to register within a week of the LOI posting, interested companies may still register after that date. Depending on the level of engagement, some companies will be required to sign Non-Disclosure and Conflict of Interest declarations before information is shared.

PHAC has advised that they are comfortable with the content of the LOI and has requested that it be posted as soon as possible. We had given a heads up to PCO on this and they suggested that we may want to have it briefed to Ministers before it goes out from a communications opportunity perspective (i.e. next week's COVID committee). 4 Corners was briefed yesterday and no concerns were raised.

Given urgency of this engagement, we would recommend going out and have an update provided to Ministers on this and the planning in general. Are there concerns with this approach?
