Hello

Please see attached. We continue to update in real time and are working with Public Safety and departments to verify/challenge that the Critical Services which are "self-assessed" meet the test of the PGS definition. A few slides will be forthcoming shortly with respect to Critical Services reported to date by individual departments.

I am attaching the current version of the COVID19 Response Plan which the GOC has prepared and distributed

I have shared the points with OCHRO and TBS Comms as well.

Thanks

Rita

Rita Whittle
