Arianne:

Fred Gaspar and I available to discuss.  
Should we set up a call now?

Peter

**Subject:** vaccines & borders

Dear CBSA colleagues,

Vaccine deployment is scaling up very quickly with the early doses coming in Q1 2021. As it happens today both Janssen and Novavax reached out at senior levels to PSPC to request that Canada take on the “importer of record” to facilitate seamless importation in to Canada. In general, our sense is we need to have a very tightly control border facilitation process in place to ensure that vaccines move efficiently especially across potentially distribution potential multiple points.

Who would you like us to work with to answer questions around the importer of record, as the contracts needs to be finalized on this point.

Thank you, Arianne
