Hi Pierre,

As you requested, I am sending your our draft deck for tomorrow's VTF meeting. We have 10 minutes and have been asked to leave lots of time for questions.

To that end, we have put together a very short deck, based on my discussion with you yesterday. The first slide speaks to authorized clinical trials and is info that is in the public domain (or will be by tomorrow am, once the NOL goes out for Medicago - which will happen shortly).

The next two slides are from the green benefits tables for the clinical trials and drugs IO. All previously used text. And that is it - the deck is short, as the request was to be able to address questions and discuss regulatory process.

As mentioned, PSPC and GAG will also be presenting before us and PHAC will also be there.

Please let me know if you have comments or concerns.

Thanks, Kelly
