**Subject:** PPE Supply and demand projections - update  
**Attachments:** PCO Sept 29V2.pptx

Hi Stephen and Harpreet, as referenced in my weekly update, attached is the latest supply and demand picture for our key PPE items. Good news, the picture on the stock of gloves and gowns continues to improve because the latest PT data submissions showed an increase in supply and because we are getting delivery dates confirmed for earlier in the year.

We're sharing the attached with PCO on a weekly basis as it's a good snapshot and we are working with StatCan to incorporate this kind of view in the new model directly.
