Hi Adine,

I have some very minor changes (there were a few typos) in the attachments.

I am wondering if there should be a Q and A on whether the Council will provide advice on the procurement of drugs for Health Canada. I do not believe it will – I think its focus is much more on personal protective equipment and cleaning supplies -- but the NR is not clear – it says advice will be provided on the procurement, etc. of “critical goods and services.”

Thank you for consulting me,

Rebecca

Hello all,

As promised, attached are the products for tomorrow’s Advisory Council announcement, by Minister Anand. There is still XX in place of the total number of members, so I am checking back with PSPC on that final

number. You'll see the backgrounder includes the member's biographies.

In the meantime, please let me know if you have any comments or concerns.

Thanks

Adine
