Subject: FW: Quebec textile company offering services for Covid-19

Dove

I have received an e-mail over the weekend from a company in Quebec that would like to offer services in response to the government's call for manufacturers to help respond to Covid-19.

The company contacted the McGill University Health Centre (5 hospitals) in our riding.

Can you let me know how they can apply for Covid-19 government contracts to supply hospital gowns and other goods for hospitals?

Thank you

Margaret

Subject: Help?

Hello Julie,

I was trying to think of how we could help and we could make our plants (in QC) available to the healthcare system for manufacturing gowns, masks, visors? As needed? Obviously, we will have some questions since that calls for a bit of a change in our production chain but nothing too complicated. We have the workforce, a plant with machines and a lot of contacts for procuring fabric/pla [plastic?—Tr.]

If this were needed and you can put us in contact with someone, we will do everything we can to help.

Good luck!
