Hi Soraya, as discussed

This is to inform you that this offer has been made by a major supplier of computers to the government of Quebec, the Quebec company **Hypertec Inc.** <https://hypertec.com> It is a serious and safe offer and the prices are reasonable.

This offer is possible because of the prior business relationship between Hypertec and the pharmaceutical company Getein <http://en.bio-gp.com.cn>

I would also draw your attention to a new offer of **500 medical ventilators** (attached)
For information, see the other product certifications (attached)
