Subject: Re: Large stock of n95 masks and other medical products for sale / vente en gros de grande quantité de masques n95 etc.

Hello Chelsea,

I registered for the action plan by filling out the form on this website on April 1, and received my bid number, No. 45340, on April 3.

Did I do it correctly?

One of the reasons I am writing to you is that Rob Ford of Ontario has been on the news saying that he is relying on the feds (i.e. you) for stock and he is still concerned to this day that he doesn't have enough stock.

I have a lot of stock.

What step should I take now in order to transfer my stock to you?

Thank you.

Sincerely,

Yan Gourvès, President

Hello Mr. Gourvès,

Thank you for your interest in providing products related to the COVID-19 pandemic. We appreciate your desire to step in and help our community and country in these uncertain times.

Our government has created a form that we ask you to complete. This allows us to evaluate all information and offers. This form can be found at the following link: <https://buyandsell.gc.ca/supplying-goods-and-services-in-support-of-canada-s-response-to-covid-19>. Once you have completed this form, please send me the reference number you will receive.

Again, thank you for offering your support. If you have any questions or concerns, please do not hesitate to contact our office.

Sincerely,

Chelsea Kusnick

To Whom It May Concern:

Hello,

I run a small international business services firm in Montreal for corporate and individual projects in Canada. I have business contacts all over the world, including China.

Since my company is a locally-based Chinese company, I was able to secure a supply of millions of masks and other hospital products as well as government and political contacts to avoid delays and diversions.

My supply chain is reliable and redundant.

How can we make sure that you have these products as quickly as possible and better protect our medical staff?

Thank you.

Yours sincerely,

Yan Gourvès, President
