Mathieu,

See below.

I do not have any contacts at Health Canada. Is there an interest in purchasing surgical masks? The President of Ethnic Channel has access to a source. Let me know if there is any interest and I can connect you.

Have a good evening.

Slava,

How could we help the Government purchase a large amount of masks? What type of masks are available?

Thanks

I have access to a known source of surgical masks where we could acquire 100,000+ masks. There is an advantage to bulk purchasing. The cost, I understand, is between \$1.30 and \$1.60 depending on volume.

Let me know if there is interest.

Thanks.

Slava
